STREAMLINE – PAST, PRESENT & FUTURE

Streamline Power Systems Pvt. Ltd. has established its business operations in **1992**. Since our inception, we have consistently strived to design, develop, manufacture, and export power electronic products that are technically superior, well-engineered, easy to maintain, and ideally suited for Indian conditions.

Streamline has been an ISO 9001:2015 certified company since 2000. For over 30 years, we have consistently delivered innovative solutions in power electronics to a diverse range of clients.

We continue to maintain our leading position in offering converters and inverters by utilizing cutting-edge technologies such as **VLSI** (Very Large Scale Integration), **PLD** (Programmable Logic Devices), **FPGA** (Field Programmable Gate Array), and microcontrollers with **DSP** (Digital Signal Processors). Our solutions also feature advanced capabilities like **GPRS**-based control and monitoring, as well as **RTWC** (Real-Time Waveform Controller) for enhanced performance.

These systems are undoubtedly regarded as benchmarks for performance and reliability. Our focus remains on core competencies rather than superficial features.

We fully recognize our responsibility and commitment to meeting the present and future requirements of our customers. Guided by a straightforward philosophy—**Quality, Commitment, Value, and Pre- and After-Sales Services**—we consistently strive to deliver excellence. The growing positive response to our products provides us with the encouragement and motivation to continually enhance our performance every day.

To date, we have successfully completed over 15,000 installations across the country and internationally. These systems are utilized in virtually every known electrical application. Our esteemed clientele includes government organizations as well as leading public and private sector entities.

While numbers and figures may continue to grow, they are not our primary focus. It is our core competence and unwavering commitment to customer satisfaction that drive us forward on the path of sustained growth.

COMPANY PROFILE

Name	Streamline Power Systems Pvt. Ltd.
Registered Office	Apurva Plaza, 1 ST Floor F.No.3B, S.No. 35/1+2/1, Ram Nagar, Hingne Khurd, Off Pune - Sinhadgad Road, Pune: 411051
Factory	Apurva Plaza, Ground Floor, S.No. 35/1+2/1, Ram Nagar, Hingne Khurd, Off Pune - Sinhadgad Road, Pune: 411051. Mob No. : +91 9579248558 Telephone : +91 2024358589 E-MAIL : 'streamlineups@gmail.com URL : www.streamlineups.com
Product Range	On-Line UPS Systems Static Frequency Converter (SFC) Static Transfer Switch(STS) CVCF/ Static Stabilizer Hi-Power Inverter Hi-Power Poly Phase Rectifier FCBC / Battery Charger Static Voltage Stabilizer(SVS) Servo-controlled voltage Stabilizer(SCVS)
PAN No.	AACCS5412K
GST No.	27AACCS5412K1ZB
MSME No.	MH26A0043303
ISO 9001:2015	QMS/15/R91/0133 DT. 28/08/2024
CE MARKING	183731 DT. 10/10/2023
IEC CODE	3100007981
